

# CHING WANG

## FULL STACK DEVELOPER

[www.ching-wang.io](http://www.ching-wang.io)

## PERSONAL

Enthusiastic self-starter and fast learner; software engineering fulfills my passions for solving real-world problems and making meaningful impact.

## TECH SKILLS

### Software Engineering

**Frontend:** JavaScript, React  
HTML, CSS, SASS

**Backend:** Node.js, Ruby,  
Rails, RESTful APIs, SQL,  
postgresql

**Frameworks:** Jest,  
Semantic UI, Bootstrap

**Methodologies:** TDD, Agile,  
Kanban

**Others:** Cloud-based  
deployment (Heroku,  
Netlify)

## TRANSFERABLE SKILLS

Team working |  
Communication |  
Collaboration | Creativity |  
Entrepreneurial |  
Attention to detail | Fast  
learning | Organisational |  
Prioritisation |  
Problem-solving |  
Workshop facilitation

## INTERESTS

Self-teaching  
Learning new skills  
Gym  
Reading  
Running (completed two  
half-marathons)

## TECHNICAL PROJECTS

**What to Watch:** [Front end](#) | [Back end](#) | [Live](#)

A web app film wishlist and recommender that integrates with multiple APIs to help users find and manage films they want to watch.

**Built with:** Rails, JS, React, Semantic UI, PostgreSQL, Heroku, Netlify

**WordSnap:** [Front end](#) | [Back end](#) | [Live](#)

A web app using Rails to build an interactive learning game. Users flip cards in pairs to memorise vocabulary.

**Built with:** Rails, JS, Bootstrap, PostgreSQL, Heroku, Netlify

**Sello:** [GitHub](#) | [Live](#)

A web app using Rails to build a community e-commerce web application inspired by Etsy.

**Built with:** Rails, Active Record ORM and PostgreSQL, Bootstrap, Heroku, Netlify

## PROFESSIONAL EXPERIENCE

### Sourcing Manager at Azooza Ltd

Apr 2018 · Sep 2019 (London)

Responsible for end-to-end sourcing and product delivery, coordinating production with providers.

Applied my negotiation skills, problem-solving and lateral thinking abilities to enable effective communication between business stakeholders and suppliers at all stages of the production process.

Helped the company establish its core business and created a strong relationship with key suppliers.

Created two brands of projects from sourcing, selecting project range through to packaging design and delivery.

### Quality & Production Coordinator at FIMA Group

Feb 2017 · Apr 2018 (London)

Utilised my project management skills and manufacturing knowledge to ensure quality and timely delivery of products by overseeing and improving end-to-end production processes.

Introduced a new sample management system to help the company manage samples in an ISO management workflow.

## EDUCATION

Software Engineering at Flatiron School, London

Oct 2019 - Feb 2020

BA at Shanghai International Studies University, China

Sep 2009 - Jul 2014

Associate's Degree in Business Management

Sep 2010 - Jul 2012

at Tongji University, Shanghai, China
